## **UCON BPO**

Cubic IBC with flap closure  
for hazardous powders and bulk materials.

### **Advantages:**

- Emptying via DN250 butterfly valve
- Best residual emptying
- Optimized outlet geometry for better product flow
- Self-supporting construction
- Continuous fork tunnels for safe forklift transport
- Environmentally friendly

### **Industries:**

FOOD | CHEMICALS | PHARMA

## **IBCs for hazardous powders and bulk materials**

Unbeatable service life. UCON, the safe choice.

The UCON BPO combines optimum cleaning geometry, best residual emptying and non-permeation. The wear-free design allows long-term reusable use. Thanks to the variety of sizes and the possibility of using different types of stainless steel, the BPO meets all your requirements. Our unerring pursuit of quality and perfection guarantees you maximum safety and durability. Your requirements and our pioneering culture result in customized, innovative stainless steel products.

## Environmentally friendly IBC for bulk materials

Type BPO. The stainless steel construction guarantees a long service life.

### Area of application:

- Storage and transportation of bulk goods from the pharmaceutical
- food and chemical industries
- Suitable for use with one of our emptying stations

### Handling:

- Mit allen handelsüblichen Flurförderzeugen transportierbar
- Stapelbar (bis 3-fach)

### Advantages:

- RFID system for traceability
- Continuous fork tunnels for safe forklift transport (from 4 sides) or with pool feet
- Tank material: Stainless steel,
- Base frame: Hot-dip galvanized/ stainless steel

### Certifications:

- UN Zulassung

### Volumen:

- 600 - 3000 Liter

| TYPE     | Volumen<br>Liter | Max. External Dimensions |        |            |            |
